

OUR STORY

In 1998, a local family set about building a major zoo that housed animals in as comfortable surroundings as possible. As such, most of the enclosure sizes are far larger than found in other urban zoos and the husbandry and welfare are aimed at achieving world's best practices. The addition of Jamala Wildlife Lodge is a major step to bolster the programs that are run by the zoo. The aim is that the funds from Jamala will allow the zoo to continue to grow and support its breeding programs. Jamala and its programs have been designed to maximize the opportunity to subtly impress on its guests that everything possible should be done to ensure that these magnificent animals survive in the wild.

Jamala Wildlife Lodge offers you the opportunity of experiencing the thrill of close encounters with some of the worlds most dangerous and endangered animals, as well as relaxing in the unique atmosphere of its three individually designed five star accommodation hubs; Giraffe Treehouses, Jungle Bungalows and uShaka Lodge. The African inspired luxury suites lie in the heart of the National Zoo and Aquarium in Canberra and epitomize style and comfort. The combination of opulent surroundings, incredible animal encounters and gourmet cuisine alongside Jamala's five star hospitality ensures that all guests share in a once in a lifetime experience during their stay.
